## **THE STORY BEGINS...**

At Farrow & Ball we are dedicated to creating unmatched paint and wallpaper using only the finest quality ingredients and high levels of rich pigments, following in the footsteps of our founders John Farrow and Richard Ball.

Still made in Dorset, England, our home since 1946, our distinctive and inspiring paint colours and finishes are renowned for their depth and complexity, bringing walls around the world to life.

Today, the unique Farrow & Ball look transforms modern and traditional homes, large and small, inside and out.

## TIMELESS COLOUR

From subtle neutrals and muted pastels, to lively accents and rich dark hues, each of our 132 colours has been created with care and thought to ensure they work beautifully both alone and as part of a scheme. Each of our paints is part of a family of complementary and contrasting tones so you can feel confident with whichever colour palette you choose for your own home.

## TALES TO TELL

Our colour names reflect the care and inspiration involved in creating our distinctive palette. Every colour originates from a particular story or meaning which is reflected in its name – be it the beauty of nature, Dorset dialect, historic houses, inspiring people and places or even the fabric of a University of Cambridge blazer.

{ If you're as captivated by colour as we are you'll love the videos on our website revealing the inspiration behind each of our 132 colours. }

## QUALITY FINISHES

Every one of our 132 paint colours is available in a range of durable interior and exterior paint finishes. From our signature matt Estate Emulsion to high shine Full Gloss, we're constantly refining and rigorously testing our paint finishes so you can be as confident in their long-lasting performance as their rich colour. Each batch of paint, or roll of wallpaper, passes through our quality control team who carry out rigorous industry tests to ensure our products meet our high standards to guarantee the best possible performance for our customers.
